

# Lake District Landscape Beginners Workshop

## Essential information

**Session:** 9.30am – 2.00pm

**Meet:** Lakeside Car Park, Keswick.  
SAT NAV: CA12 5DG

**Contact:** 07919 374 385

## What do you need on the day:

### Equipment

A DSLR camera, lenses, and a tripod. Appropriate SD or CF cards and enough batteries to cover a 5hour course. If you do not have a tripod, we can lend you one on the day.

### Food and drink

Be sure to pack a lunch time meal and drinks for the day. We will be out in the Lake District searching for viewpoints and interpreting the varied landscapes and light

### Clothing

It is the English Lake District, so be prepared. Pack waterproofs and warm layers in your rucksack, even on a dry day. Bring some sun protection too in case we're lucky enough to see some sunshine. Strong waterproof walking boots or wellies are also essential. We won't be far from roads or paths, but the perfect view may be the hillock across a bog!

### If you have time before the day

Spend an hour or two getting familiar with your camera settings. In particular, aperture and shutter priority as well as auto focus modes. Anything you can pick up before you come will help you on the day.

*Please note this workshop is run by Photographic Creations, Brian Austwick's UK Landscape Photography business*
